

Firepot Biomass
Part #MF3656
used on Countryside units

- Shut unit off.
- Open access door after unit has cooled down.
- Remove firepot, fuel stirrer and shaft collar. Slide shaft collar to the right. Making sure the fuel stirrer drive shaft is in the up position pull the firepot, fuel stirrer and shaft collar up to remove.

- Place firepot into cradle as shown.
- Close door and start unit.
